JERRY LIND .- Mrs. Goldschmidt's name was Jenny Lind-und so we are constrained to call her when we speak of deeds of charity which are indiscolubly associated with that name. The Northampion Gazette says that the object for which she came to this country -the catablishment of free schools in Swedenhas been accomplished, and the money forwarded to her native country. The thanks of the world, and of her own native land in particular, are due to the generous songettess.-Boston Journal

We have seen persons who gatheres from the parterre their choicest flowers just as they began to open into tul bloom and fragrance, lest some passer by should tear them from the bush un destroythem. Does not God sometime gather into heaven young and innoces children for the same reason-lest som rude hand may despoil them of the beauty ?

Coinage .- A bill has passed the Se ate to reduce the weight of the silv coins, with a view, we suppose, to che the expertation of ellver. The same b directs the coinage of gold pieces of 1 value of \$3, and imposes a seigniors or tax of 1-2 per cent, on gold coined the mint.

TRIBTY SECOND CONCRESS,

WARMINGTON, April B.
BERATE Mr. Cooper of Pennsylvania presented a memorial from Mr. Laute, proposing to reproduce for the Government his picture of Washington crossing the Delaware.

Also, to paint another, representing Vashington rallying his retreating roops at Monmouth.

Mr. Cooper commended the object in the strongest terms, and said that be had also received a memorial from Mr. Healey, proposing to paint for the Gov. ernment the scene of the Boston tea party in the act of throwing the tea overboard, and also the battle of Bunker

Mr. C. spoke of the importance of encouraging the fise arts.

Referred to the library committee, Mr. Douglass introduced a bill amendatory of the act for the establishment of the territorial government of Oregon and Minnesota.

House .- Mr. Chandler presented resolutions from the Legislature of Penn-Mr. McCorkle presented resolutions

from the Legislature of California, in relation to the establishment of forts on their borders, and a civil fund for that atate.

The House then resumed the consideration of the navy discipline bill.

. Mr. Bocock spoke of the necessity of reform in the navy, and the negligence of Congress thereon. He argued the necessity of some substitute for the lash, and a renewed legislation thereon.

FROM CHICAGO TO NEW YORK IN FOR-TY Hours .- The Chicago Democrat says that on and after the 5th inst., the cars will leave that city at 7 o'clock, A. M., for Poledo, where passengers can take a boat and be in Dunkirk for breakfast the next morning, and in time to take the morning train for New York city. It is now rendered certain, that the time between Chicago and New York can be reduced to forty hours.

SOAF-SUDS FOR VINES .-- A. J. Downing, editor of the Horriculturist says :-WI have seen the Isabella grape produce 3,000 fine clusters of well ripened fruit in a season, by the liberal use of miniture and soap-suds from the weekly

-The effect of scap-suds on other plants is something surprising. A cypress vine, which had remained stationary for a fortnight, when about two inches high, immediately commenced growing after a good watering with soap-suds, and grew about six inches the first five days.

na Daniel J. Holmes, of the Supe mura class of Yale College, New Haven, was married, a few.evenings since, to Miss Ezilla L. M. Plumb. On the evening following this event, the Sophnunere class met and adopted suitable resolutions, one of which was:-"Resolved. That in consideration of the crying evils which naturally result from such unions, we present him with a cradle, which, like the purse of Fortunatus, we trust may never be empty."

In Charleston, S. C., there is a natural phenomenon on exhibition, namely, a common house cut nursing 2 rat with her kittens. It is stated that the rat was brought into the lamily circle about ten days ago, very young, since which time it has imbibed a portion of nutriment from the cat, and has received the parental attreation in common with its legitimate offspring. .

MRS. PARTINGTON.—" Is the steamer signified, sir ?" asked Mrs. Partington at the telegraph station.

"Yes'm," replied the clerk, who was engaged turning over the leaves of

his day-book. Can you tell me," continued she," If

Some says the's encreaching all the

time," said the clerk, looking pleasantly at the old lady, and evidently pleased at his own smartness. "That isn't possible," responded the

venerable dame; "but," eaid the to herself, "how could be be expected to know about such things ! and yet there's no reason why he shouldn't, for all the bars of science, notamy and them things let down now-a-days, and natur is shown all undressed like a poppet show, sixpence a sight! Good morning, sir," said she, as she bowed herself out-and she passed down the stairs, her mind grasping the manifold subject of the telegraph, queen, and the facilities in science, and becoming oblivious in a fog.

DEING a Manufacturer and Dealer in Benning
D Floid and Camplaine, and in order to by at
facts fairly before the Valile, I take the present
opportunity of referring to the many Driedful Accilents from Explasion of Camplaine and Plaid
Lamps and Cams, which are going the rounds in
all the city Newspopers, and in explanation of the
necident in Natem; which Lappened a few days
ago, I copy the following from a Rosson paper,
which gives the following explanation of the necidenti-

dent:—
"It is stated that the can contained, by conjecture, about a quart of Fluid, and was placed on is shelf, at a distance of several feet from the storm which the fire was burning. If these are betting explosion could ever favor taken place without the introduction of fire and the atmosphesic about the Canat the same instant; it is currently recented in Selgon that the infortunate viction was noty the Can at the space ferbard; it is conveny reported in Netton that the infortunate viction was in the hisbit, at times, of pooring or aprinkling the Phild up to the My-mand as this may have been to us in the present instance and, in the ab-sence of all proof to the contrary, (the Mother be-ing in an adjuining room) we have a solution of the matter.³⁷

Now by a caseful examination into all accidents

ing in an adjulating rous) we have a solution of the matter. The state of the matter, to will find them caused altogether by carefels easily alto find them caused altogether by carefessness, and, in fact, since the introduction of Camphree and Hurning Fluid in this place, all accidents that have happered have been place, all accidents that have happered have been the place, all accidents that have happered have been the place, all accidents that have happered have been the place of the barning, or leaving the Wicks out to foot of the table, as in the case of the last metident which happened here.

Camphone and Fluid upen safe, clean and charparticle of Light; and with proper Langer and ordinary care, are perfectly safe and will never explode, unless they are bought in connect with fire.
